At Paul Penders we retain the unique healing properties of organic botanicals, which are found in the oldest rainforests of the world and combine it with our conventional cold-blended mixing technology which helps keep the bio-active ingredients at full-strength, while processing for maximum product potency.

Paul Penders range of products provide visible results. Along with many international awards, the company was in focus in 2001, when it received excellent ratings from Researchers David Steinman M.D and Samuel Epstein M.D in their book, *The Safe Shopper's Bible*.

## A Lifetime of Beauty

Paul's fascination with cosmetology began at an early age. The foundation for his love was laid by his parents and grandmother who taught him their time-tested unique secrets.

An active environmentalist and ardent animal rights activist, Paul Penders incorporates these very beliefs in his products, today. His dedicated Philosophy of 'no chemical' and 'no animal testing' started with shampoos and later evolved into an award-winning Vegan skincare range of products for people of all ages, worldwide.

100 Years of Family Tradition

## HISTORY

Our story began 50 years ago when our founder Paul Penders saw his grandparents run successful salons across the Netherlands. This encouraged his desire at a very young age to go beyond the chemical based beauty products and create natural, herbal, vegan and environmental friendly range of products, thereby making his name synonymous with natural herbal skincare.

With the encouragement from the Dutch herbal master Herma Eeftink and natural healer Dr. Ab Steyn, Paul decided to incorporate a unique family recipe, an herbal extract, into his products called *LevensESSENTIE Gold™* (Dutch for "Essence of Life"), which was earlier used by his grandmother for extraordinary skin and hair care formulations. This very unique blend of *LevensESSENTIE Gold™* is used in our products even today.

## *LevensESSENTIE Gold™* - THE PRIDE OF PAUL PENDERS

Our *LevensESSENTIE Gold™* (meaning "Essence of Life") is formulated to balance the skin, hair and body using botanical ingredients found in Mother Nature to restore the balance and vitality of your skin. This 22-herbs extract is used in all our Paul Penders products and is a traditional family extract made by Paul's grandmother, who used it about 100 years ago for her salon customers.

In effect, the unique blend of *LevensESSENTIE Gold™* creates a balance for the skin and restores its health and vitality.

Our vision is similar to the traditional principle of Ayurveda. It is the science of life: the Sanskrit words 'Ayur' means 'life' and 'veda' means related to knowledge. Ayurvedic literature can be first found in the Vedic period of Ancient India. It's described as a natural medicinal system that treats and promotes a healthy mind, body and soul.
